The demands for mechanics and laborers this fall leaves the impression that General Prosperity is still in command in this country. There are, or should not be if they will work, no recruits for Coxy armies in this section of the state.

The papers have considerable in them about a farewell to Towne in which Mr. Bryan was one of the principal speakers. From previous stories concerning Mr. Towne it is inferred that the farewell was from the common people as that gentleman is leaving to join the plutocrats and nabobs.

The World-Herald is attempting to drown the cries of distress issuing from the democratic party by insinuating that the republican ship is leaking and that the fusionists will be returned to power this fall. This is one of that paper's favorite tactics, but outside of its columns the people have noticed little or no change and from past experience the people cannot but conclude to wait for something more definite than the assertions of this paper. They will not soon forget that last fall the World-Herald claimed a fusion victory in the state almost up to the time the official returns were complete.

Deputy Game Warden Herz of West Point is the kind to command the respect of law abiding people. During his term of office he has confiscated 23 seals along the Elkhorn and prosecuted two hunters for the illegal shooting of game. So vigilant has he been that he has aroused the extreme enmity of all the poachers in his district and recently they had him arrested on the charge of illegal seining but he proved that his seining was done strictly according to law, that is with the consent of the game warden and only such fish being removed as are not game fish including buffalo and carp. Mr. Herz's enemies have been disconcerted and his standing with a law-abiding community has been strengthened. If there were a hundred such wardens throughout the state there would soon be sport for all and the game law would not become a dead letter.

The Manila American considers the idea that Filipino labor may invade either Hawaii or the United States the silliest absurdity. That paper says: "The idea that the Filipino will work anywhere can be engendered only in the minds of people who have no conception whatever of the Filipino's characteristics and physical capacity. The Filipino will not work. Their own country will never be developed unless labor can be brought from China or elsewhere to reclaim the sugar lands, to seed and gather hemp and to fell and work up the very valuable timber. The Filipino is not a worker, as the Americans here have learned quite too often in road building and on other public enterprises. Have no fear of the Filipino 'laboring man.' He doesn't exist; he is a myth. In addition to his disinclination to work the Filipino will not leave his home—his family, his fighting cocks, his lazy and happy-go-lucky life. Few will consent to go from one province to another, and it is rarely that a Filipino woman can be induced to leave her native village, even to accompany her husband."

An Emergency Does Exist.

The Omaha Bee of yesterday questions where there is an emergency to be met that would warrant the board of public lands and buildings in reconstructing the west wing of the Norfolk hospital for the insane without awaiting legislative action.

There is an emergency in more particulars than one. In the first place to await the action of the legislature would mean the loss of thousands of dollars worth of property that could be saved by immediate action. Time will destroy the walls of the institution now standing, which are in good condition, the same as any walls left without support would be damaged to a large extent by

wind and weather. To save this property by reconstructing the floors and roof is one of the emergencies. Another is that the inmates might be given the accommodations and care they require. The other institutions are now full and the west wing could be far more cheaply and quickly reconstructed than to erect a new building or additions to the other institutions. The Bee suggests that the building of the institution not destroyed by fire be made habitable, meaning no doubt that partitions should be put in the chapel building and rooms or cells made therein. To do this would be a useless expenditure that the taxpayers would be slow to favor. Under ordinary conditions the buildings standing are needed just as they are and to put them in habitable condition until the legislature meets would result in another expense when it became necessary to restore the building to its present condition. Then as soon as practicable the unfortunate concerned should have better accommodations than the state can provide at present. They are being very well cared for here as a temporary expedient but they might well feel discouraged did they realize that there would be no change in their circumstances until after the legislature meets. And undoubtedly the care they receive here is better than could be bestowed on them in crowded institutions which the Hastings and Lincoln hospitals would certainly become if those being kept here were transferred.

It is quite evident that the Bee editor is writing from a long range view and that if he had been fully conversant with the situation existing his opinion would have been quite differently expressed.

BRISK FIGHT WITH BOERS.

Captain Bellow and Four Others Killed and Several Wounded.

Cape Town, Oct. 18.—In a brisk fight at Twenty-Four Streams, near Piquetburg, yesterday, Captain Bellow and four others were killed and several wounded.

The British had surprised several camps and the Boers are now in the habit of shifting camp by night. Late in the British columns, after long night marches, have arrived at their objectives only to find the Boers gone.

British columns penetrating Orange River Colony miles from the railways find fields of maize or freshly plowed lands, the Boers making off at their approach and returning when the columns pass on. The herds on the high veldt still seem to be numerous. The Boers are living on cattle and mealies stored in out-of-way places.

INVADERS REACH SEACOAST.

Boer Commando Marches Through One of Great Cape Colony Valleys.

Cape Town, Oct. 18.—The invaders have reached the sea, a commando of 500 men having penetrated through Great Berg river valley to Hopefield and Saldaña bay, northwest of Cape Town.

The republicans have secured a number of recruits and considerable quantities of supplies. General French is directing operations against them.

Bars Colored Woman's Club.

Owatonna, Minn., Oct. 18.—The Colored Woman's club of St. Paul was yesterday refused admission to the Minnesota Federation of Women's clubs. The subject was presented by the membership, who recommended that owing to the affiliation of the state federation with the general federation, which has this subject under consideration, action upon it be deferred until after the general federation has reached a decision. The convention instructed its delegates to the biennial convention of the general federation, to be held next summer in Los Angeles, to accept the wisest compromise upon the color question.

One Killed, One Injured.

Lincoln, Oct. 18.—By the parting of a stay wire upon a light pole at Ninth and C streets yesterday, Timothy Keefe, a resident of this city, lost his life and O. Wiltze of Omaha was very severely injured and may die. The men were working near the top of the pole, about 40 feet from the ground, when the wire parted and the pole, rotten at the bottom, fell over, carrying the men with it.

Telegraphers Discuss Amendments.

St. Louis, Oct. 18.—The convention of the Order of Railroad Telegraphers spent the day in discussing the amendments proposed to the bylaws and constitution. The amendments under discussion were reported by a committee appointed during the regular session of the order at Peoria in 1899. They relate chiefly to the administrative features of the laws governing the order and the mutual benefit department.

Liabilities Larger Than Assets.

Minneapolis, Oct. 18.—The schedule of the assets and liabilities of the St. Paul and Kansas City Grain company have been filed. The liabilities amount to \$845,000 and the assets are scheduled at \$807,000. The company operated a line of elevators along the Chicago Great Western and Milwaukee roads. As a rule they were small houses, for their value is estimated at less than \$200,000.

American Humane Society.

Buffalo, Oct. 18.—At yesterday's session of the American Humane society the question of a personal newspaper organ was considered and referred to the executive committee, as was the question of incorporation, and selection of the next place of meeting. Rev. Dr. Francis Rowley, the retiring secretary, was tendered a vote of thanks for his seven years' service.

CLOSE OF THE CONVENTION

Episcopal Delegates End Their Labors at San Francisco.

PASTORAL LETTER IS READ.

Considerable Business Disposed of in the Closing Session and Impressive Ceremonies of Adjournment Performed—Divorce Laws Go Over.

San Francisco, Oct. 18.—The triennial convention of the Episcopal church of America has adjourned since die. The next convention will be held in Boston in 1904. The day was a busy one in both houses, much of the time, however, being taken up by the discussion of matters which were not definitely decided. It was agreed to make Honolulu and Cuba missionary districts, and to create the missionary district of Salina out of the dioceses of Kansas. The election of Rev. Cameron Mann as missionary bishop of North Dakota was concurred in by the house of bishops. Both houses agreed to the report of the joint committee on the proposed Huntington amendment to article 10 of the constitution. This action virtually relegates the matter to the next general convention. On the adoption of the report, Dr. Huntington said he would now leave to younger men the continuance of the fight he had begun. Agreements were reached by the two houses on several minor matters and the usual resolutions of thanks were passed.

The closing exercises were impressive. The bishops attired in their robes of office and preceded by Dr. Samuel Hart, secretary of the house of bishops, and C. L. Hutchins, secretary of the house of deputies, marched in procession into the church. As they walked up the main aisle the vested choir of Trinity and the congregation joined in singing. The bishops were seated on the platform inside the chancel, and prayer service was conducted by President Lindsay of the house of deputies. Bishop Doane of Albany then called for a contribution to be applied toward reducing the deficit in the general missionary fund. The amount given was not announced but was very liberal. The triennial pastoral letter was read by Bishop Dudley of Kentucky.

The benediction was pronounced by Bishop Tuttle of Missouri and the convention adjourned.

SMITH SUCCEEDS SNOW.

Chosen President of the Church of Latter Day Saints.

Salt Lake, Oct. 18.—At the regular weekly meeting of the council of apostles, held in the Temple yesterday, Joseph F. Smith was chosen and set apart as president of the Church of Jesus Christ of Latter Day Saints, in succession to the late Lorenzo Snow, with John R. Winder and Anthony H. Lund as his first and second counselors respectively. Apostle Brigham Young was sustained and set apart as the president of the quorum of 12 apostles.

Pastor Rice Ousted.

Marysville, Kan., Oct. 18.—Rev. F. J. Rice, pastor of the Baptist church of Marysville, has been accused by his congregation of lack of patriotism and ousted him from his pastorate. On the Sunday following the death of President McKinley, it is alleged, the minister failed either to pronounce an eulogy upon the late chief executive in his sermon or to refer to his death in his prayers. Words of sympathy for the afflicted wife were spoken, but the application was not clear enough to satisfy all his hearers. Rev. Rice is absent from the city, attending the Baptist state convention at Kansas City.

Priests Read Papers.

St. Louis, Oct. 18.—The Catholic eucharistic congress was largely attended yesterday and interest in its proceedings is increasing. The morning session, after the celebration of low mass, was devoted to the reading of papers, as follows: "Eucharistic Sermons and Instructions," by Very Rev. G. Heer, Dyersville, Ia.; "Weekly Communion," by Rev. William T. Kinsella, St. Louis.

Western Catholic Union Elects.

Rock Island, Ill., Oct. 18.—The Western Catholic union yesterday elected the following officers: Supreme president, Herman F. Jochem, Quincy; supreme vice president, Joseph Braun, Joliet; supreme financial secretary, John Schaff, Quincy; supreme recording secretary, F. William Heckeamp, Quincy; supreme treasurer, Henry Hennig, Quincy.

Congregationalists Adjourn.

Portland, Me., Oct. 18.—Although it had been planned to hold at least one session today, the national Congregational council, which has been in triennial session here since last Friday, succeeded in clearing up all the business yesterday and final adjournment was taken last night. The next meeting will be held in Des Moines, Ia., in 1904.

American Competition Blamed.

London, Oct. 18.—In Northampton yesterday turbulent scenes occurred. Hundreds of unemployed shoemakers, incited by socialists, stormed the workhouse, demanding relief from the distress caused by the paralysis of trade, attributed to American competition.

Congressman Hull Improving.

Des Moines, Oct. 18.—Congressman J. A. T. Hull passed a restful night and is much improved. It is settled that he is not suffering with appendicitis.

DYNAMITE AND MINERS.

Long Immunity From Accident Results in Contempt of Danger.

"After a miner had handled dynamite for eight or ten years without a serious mishap it is a good idea to put him to doing something else about the works," said a gentleman of this city who has had a great deal of experience with high explosives. "The chances are a hundred to one that his long immunity from accident has given him such a contempt for danger that he is an unconscious menace to everybody on the premises. He will do things that not only imperil his own life, but the lives of all his comrades. To give you an illustration, once I had an old Cornishman at work at a mine in which I was interested and had intrusted him with a general supervision of all the blasting. He had been handling dynamite for twenty years or more and was justly regarded as an expert. During that entire period he had never had an accident worth speaking of, and by degrees the care and vigilance that were responsible for his excellent record had worn away until he was beginning to entertain the delusion, common to old hands, that the danger of the stuff was very much exaggerated.

"One day I was passing through a cut where some blasting had been going on and noticed the old Cornishman hammering a drill into what seemed to be a boring in the rock. I asked him what he was doing, and he told me coolly there was a cartridge in the hole that had failed to explode and he was 'just knocking' out the tampion to re-prime it.' I was horrified, for at every blow he was liable to explode the dynamite, and I ordered him sternly to stop and never repeat such a performance. The proper method would have been to have drilled a new hole near by and exploded the first charge with a second blast. He obeyed sullenly, grumbling to himself, and less than a month afterward was blown up while doing exactly the same thing. He lost his left arm at the shoulder, his left eye and part of his left ear. He also lost his contempt for dynamite, and when he finally emerged from the hospital I gave him back his former job. I never had a more scrupulously careful employee than he was from that time on. It seems a brutal thing to say, but there is nothing that does an old dynamite hand as much good as to get blown up once or twice."—New Orleans Times-Democrat.

Parental Economy.

"Papa," said Dicky, "all the other boys are going to have torpedoes or firecrackers or something for the Fourth of July. Can't I have anything at all?"

"Dicky," said Mr. Stinje, beckoning mysteriously, "come with me, and I'll show you something."

He took him out to the summer kitchen and showed him a large package, neatly folded and tied with a string.

"There," he said, "are all the paper bags that have been brought into the house for a whole year from grocery stores and other places. I have had your mother save them for you. Every one of them will make as much noise as a firecracker if you fill it with air and pop it right."

It was not exactly what Dicky had set his heart on, but it was all the Fourth of July he got.—Youth's Companion.

Stuck.

Penner—Say, give me a synonym for "psychic," will you?

Wright—Well, there's "psychological."

Penner—All right. How do you spell it?

Wright—Why—er—oh, I give it up. Why not use "psychic"?

Penner—I would, but I don't know how to spell that.—Philadelphia Press.

Why Care if the Baby Is Healthy? Muggins is not handsome, and he knows it. When his first baby was born, he asked, "Does it look like me?" Of course they replied in the affirmative.

"Well," said he, with a sigh, "break it to my wife gently."—London Tit-Bits.

Seize Canal Property.

New York, Oct. 18.—The Gazette de Panama, an official organ of the Colombian government, has published a legal notice of the Panama courts announcing the seizure of the Panama Canal company's large three-story building in Cathedral square, Panama, to enforce the payment by the canal company of \$30,000 due to Henry Schuler, a United States citizen.

Killed by Rapid Transit Car.

Waterloo, Ia., Oct. 18.—Frank Kerr was killed by a rapid transit car last night while riding in a closed buggy. A man named Parker of Iowa Falls cut his throat in the city prison. He may live.

E. E. & M. V. R. R. Cheap Excursions.

July 1 to September 30, special summer rates to Utah.

Every day until October 31, Pan-American exposition rates to Buffalo, N. Y.

Will be glad to furnish particulars of above cheap excursions and talk over routes and connections via the old reliable Northwestern Line.

H. C. MATRAU, Agent.

Bids for State Printing.

The state board of printing will receive bids for sundry and miscellaneous printing on or before 12 o'clock noon of Friday, November 1, at the office of secretary of state. Specifications will be furnished on applying to the secretary of state. Bids should be accompanied by a bond equal to the probable amount to be paid for the work bid upon. The board reserves the right to reject any and all bids.
